1/35 MILITARY MINIATURE VEHICLE UPGRADE SERIES PE351067

1/35 MILITARY MINIATURE VEHICLE UPGRADE SERIES PE351067

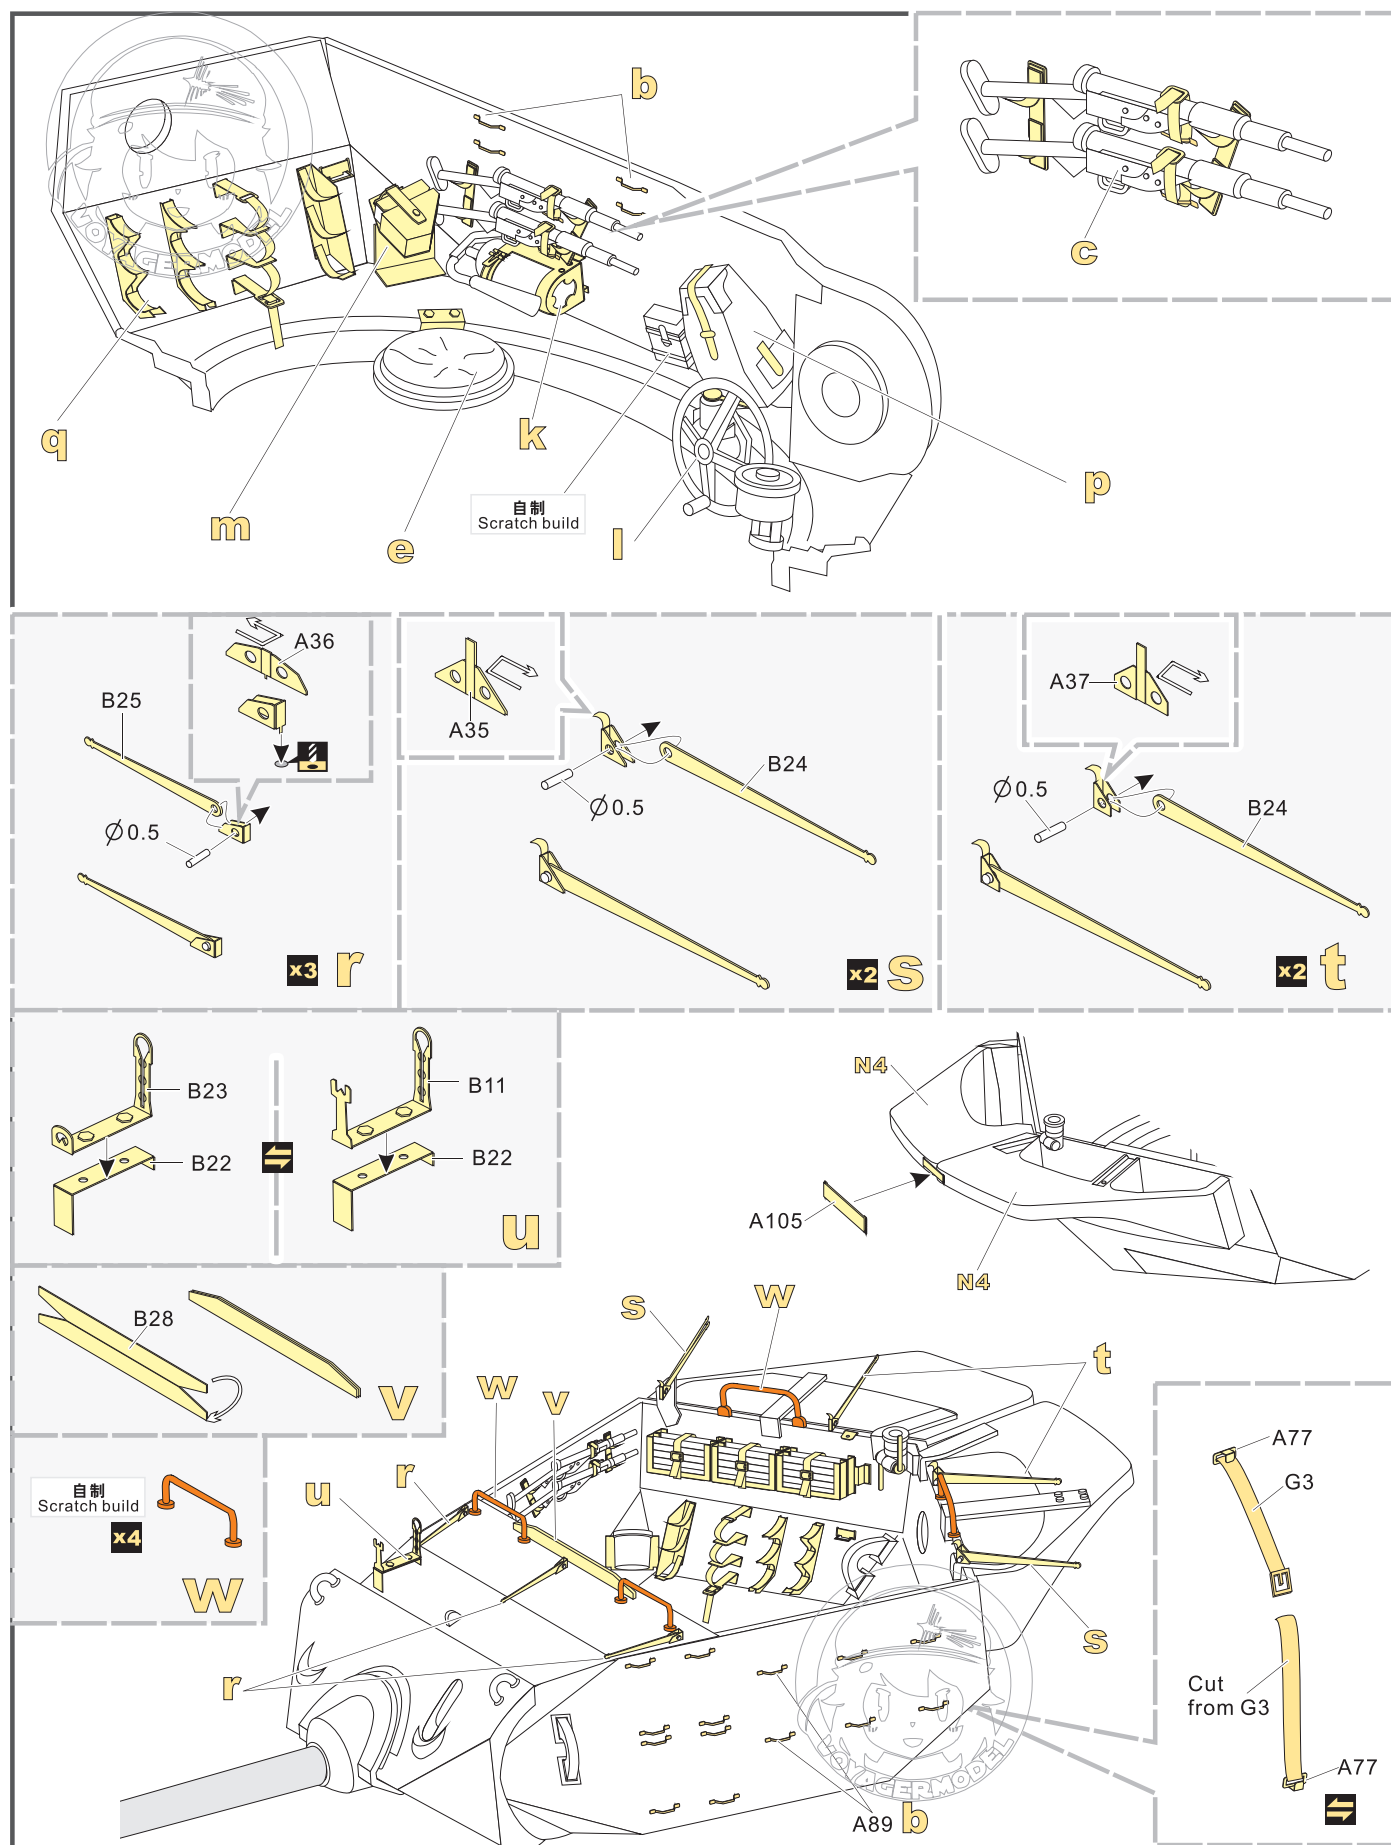

1/35 MILITARY MINIATURE VEHICLE UPGRADE SERIES PE351067

A diagram of a yellow seatbelt. A label 'G3' with a black arrow points to the buckle. A label 'G4' with a black arrow points to the same buckle area. A label 'A89' with a yellow arrow points to the seatbelt strap.

y

Z

A diagram of the A31 assembly, showing a yellow component labeled A31 connected to a white component labeled D13. A yellow component labeled G3 is also shown, connected to the white component D13.

aa

A diagram showing a cross-joint assembly. A yellow rectangular plate, labeled A101, is positioned horizontally. It is supported by a vertical metal rod that passes through a hole in the plate. The rod is secured by a nut and washer on the bottom. Curved arrows indicate the plate can rotate around the rod. Another curved arrow on the right indicates the rod can move vertically.

P20

A diagram of a roller coaster car at the top of a loop. The car is white with a yellow track and is positioned at the peak of a vertical loop. A yellow band is wrapped around the car.

x2 a b

The diagram shows two components: A52, a yellow, curved, funnel-like structure, and D1, a white, curved, funnel-like structure. Both have arrows pointing to their respective parts in the diagram.

The diagram illustrates the connection of the A89 cable to the G3 cable. The A89 cable is shown with a yellow connector that fits into the G3 cable's connector. The G3 cable is labeled with a yellow 'y'.

ac

Diagram illustrating the front panel assembly. Components labeled include: **ab** (screws), **z** (mounting bracket), **ac** (front panel), **A89** (mounting bracket), and **G4** (mounting bracket).

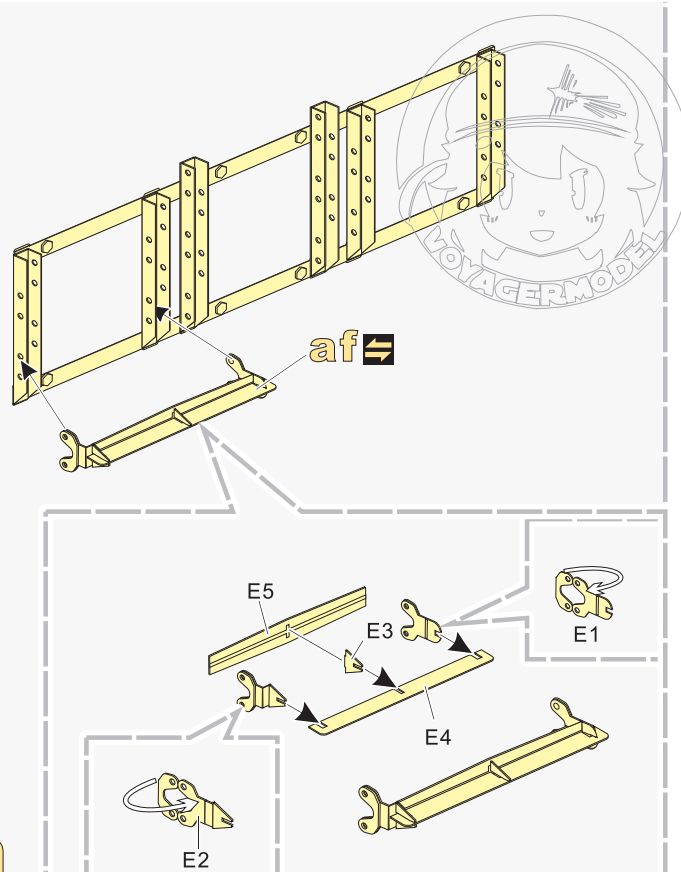

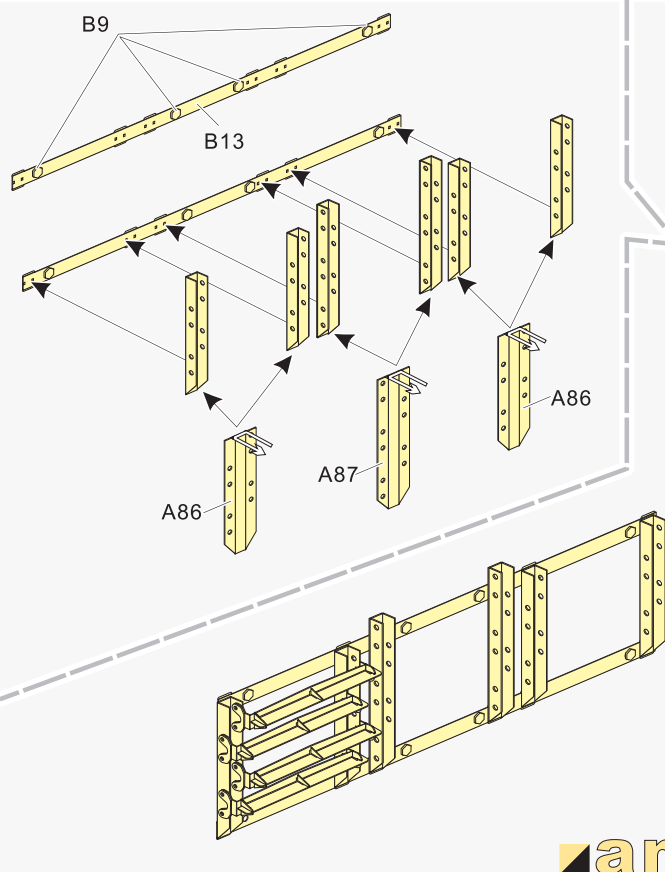

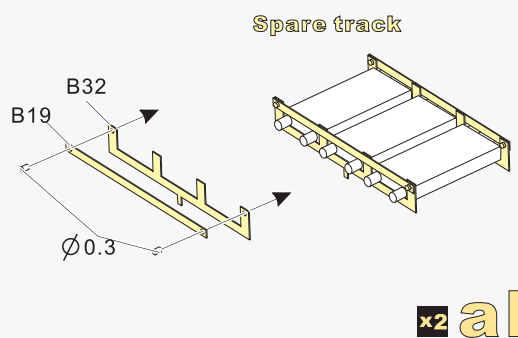

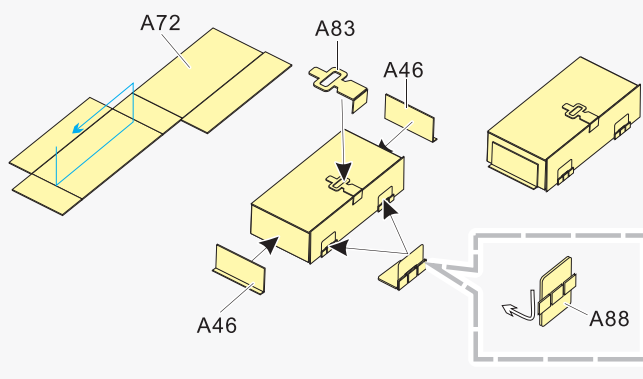

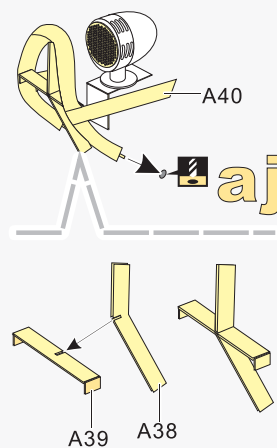

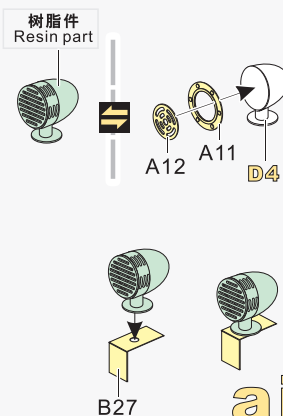

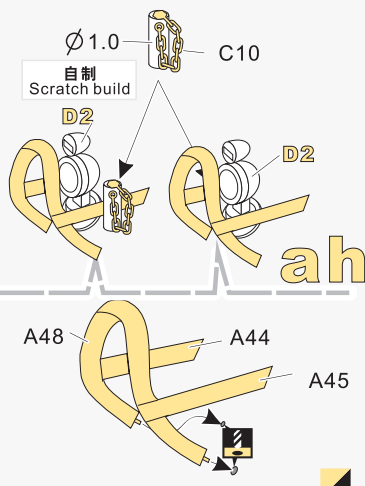

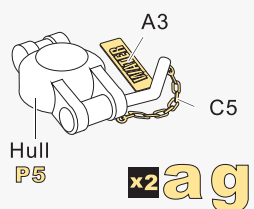

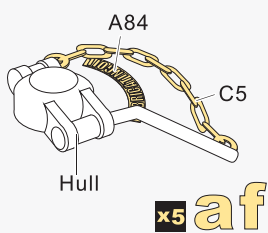

aa

A diagram of a beam with a triangular support. The beam is yellow and has a label 'D1' on its right end. A curved arrow points upwards from the left end of the beam, and another curved arrow points downwards from the right end. A triangular support is located under the beam, with a curved arrow pointing upwards from its base.

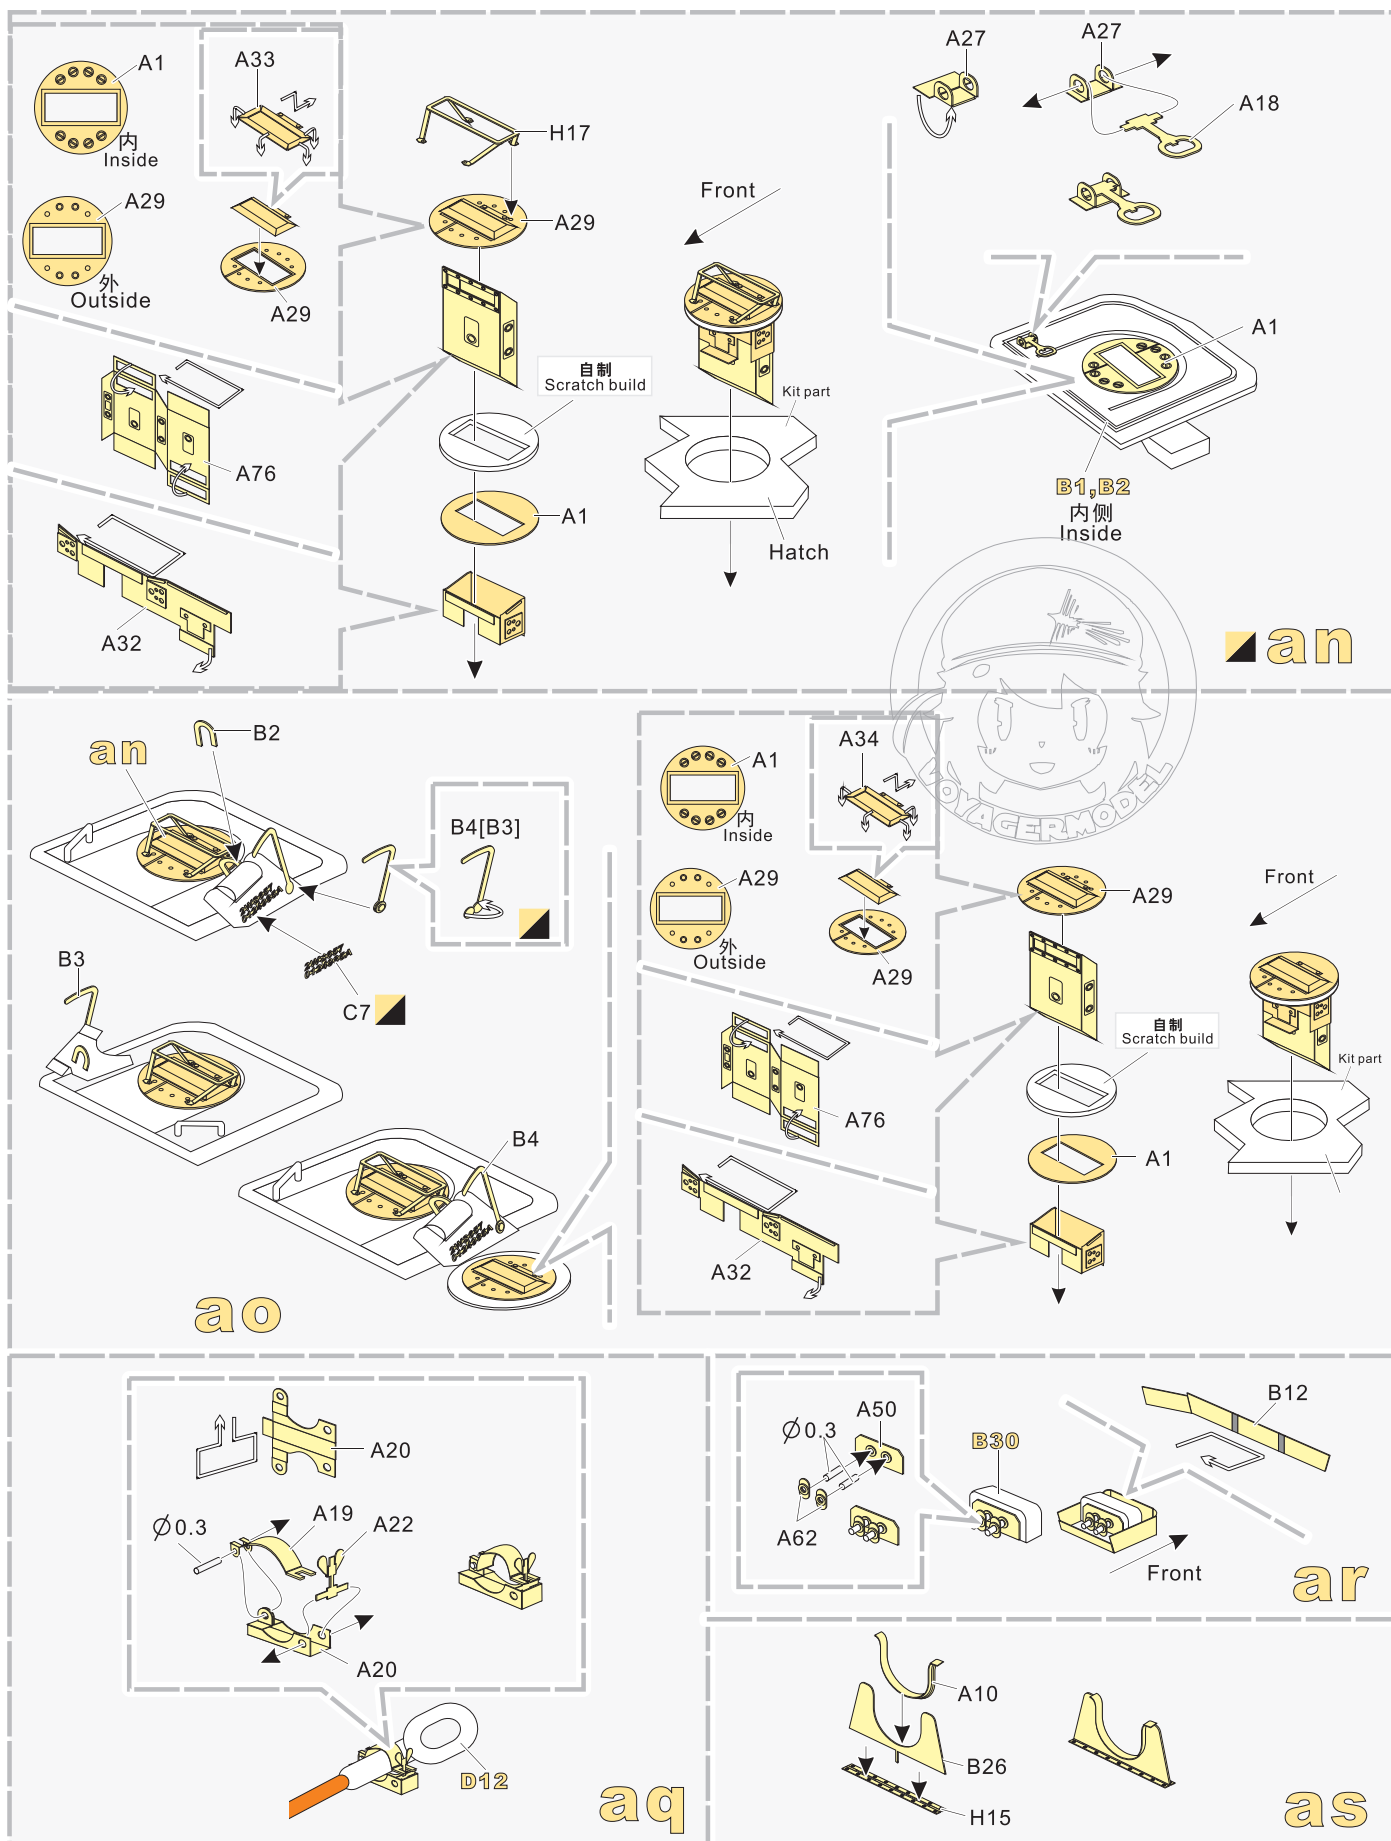

An exploded view diagram of a mechanical assembly. The main component is a yellow L-shaped bracket. A long thin rod (D4) passes through the top of the bracket. A small rectangular piece (D2) is shown being inserted into a slot on the top surface of the bracket. A red arrow points from D2 to the slot. A small rectangular piece (D3) is shown being inserted into a slot on the side of the bracket. A long thin rod (D4) is shown passing through the bottom of the bracket. A small rectangular piece (D5) is shown being inserted into a slot on the bottom surface of the bracket. A small rectangular piece (D7) is shown being inserted into a slot on the bottom surface of the bracket. A small rectangular piece (D9) is shown being inserted into a slot on the top surface of the bracket. A red arrow points from D9 to the slot.
